LOCAL NEWS.

Mr and Mrs. Edw. Oatway, from Lashburn, Sask., are visiting this week with Mr and Mrs. R. M. Oatway.

Rev. W. A. Clarke and Mrs. Clarke, of Indianapolis, Indiana, are visiting with Mr and Mrs. J. F. Clarke.

Mr. Rudolf Goebel has returned to her home at Robb, Alta., after making a short visit here with her parents.

Mr and Mrs. Franklin K. Clark, of Jasper, are visiting, this week, with Mr. Clarke's parents, Mr and Mrs. J. F. Clarke.

Mr. Roy Alton, of the Stony Plain Hardware, moved his household effects out from Edmonton on Monday, and is now occupying the house recently vacated by Mr. Kibblewhite.

Mr. R. Hein, Edmonton, was a Sunday visitor with Mr. Gus Mintz.

Miss Mary Miller, from Chicago, is visiting in Stony with her parents, Mr and Mrs. Ph. Miller.

Mr. H. Miller, manager of the Federal elevator, is off for a month's holiday.

Not enough members of the Town Council were present Thursday evening last to form a quorum, so an effort will be made to hold a meeting this evening.

The 100 navvies who had been raising the railway track in this sector, and were camped in Stony for a month, left town on Sunday and moved farther West.

Sommerfield & Mayer are receiving, this week, another carload of Chevrolets. Among their recent sales was a handsome coupe to Mr. Raymond Shaul.

Mr. Reinhold Goertz, the well-known and enterprising farmer, and a councillor of Inga municipality, has acquired a motor vehicle.

R. C. Services will be held in the Town Hall Sunday morning next at 9; by Rev. Chas. Keenan.

The service last Sunday evening under the auspices of the Baptist Church at Glory Hills, drew a large audience. An impressive address was delivered, and the orchestra gave a fine rendition of sacred hymns.

Dance in Wudel's Hall,

Friday, July 22nd.

The Message Of The Bells

Thirty-five Years Making Toy
After 35 years' effort, Charles W. Aldridge, of Battersea, England, has at last completed a doll's house in a match box. The house contains four rooms, and is perfect in every detail. From the roof to the floor, from the chairs to shelves, pictures on the wall, and coverings for the tables. A tiny doll is mistress of the diminutive home.

Children Cry for

Luxuriant Vegetation Is Typical Characteristic Of The Famous Peace River Country

The luxuriant vegetation of the country drained by the world famous Peace River in Northern Alberta and British Columbia, is one of its most remarkable characteristics, according to an exhaustive report recently published by the Natural Resources Intelligence Service of the Department of the Interior at Ottawa. Though the growing season is short, the rate of growth is rapid in midsummer, especially with respect to grasses, cereals, vegetables, shrubs and smaller plants. There are no barren or desert areas. The nearest approach to any natural lack of vegetation is sometimes seen on high areas of open prairies in exceptionally dry seasons, when the native upland hay is sometimes short and light in consequence. The prevailing impression of the landscape during summer months is one of abundant greenness.

Trees, shrubs, wild fruits and flowers abound, but the most striking form of native vegetation is prob-

ably the grasses. Everywhere except in the dense woods the ground is clothed with some form of pasture. On the open prairies the native upland grasses can be made into hay of excellent quality. The marshes, edges of ponds and wet meadows produce heavy yields of sough grass which, though much coarser than the upland varieties, makes a hay of fair quality and excellent keeping qualities. Several varieties of legumes are native to the district, the most prolific of which are the so-called wild vetch and pea vines. They grow in great profusion in lightly wooded areas and flourish after fires, even though the soil has been injured for other crops.

While much publicity has been given to the prairies of the Peace River country by far the greater portion of its area is wooded, says the report. The only commercial tree of note is the white spruce, excellent stands of which are found in nearly every valley from the headwaters of the many tributary streams to the mouth of the Peace itself. Closely associated with the white spruce, especially on the

higher ground, is the aspen poplar. This spruce-poplar type prevails extensively. Black spruce and tamarack are found on poorly drained areas, balsam poplar (Balm of Gilead) in many valleys and lodge-pole pine on sandy and gravelly elevations. Birch is widely scattered, while some balsam fir is found in the mountainous regions.

The prevailing shrubbery and undergrowth consists mainly of willows, which border many of the lesser streams and shallow lakes and ponds, and of alder. These are augmented in many sections by the bushes of red raspberries, high-bush cranberries and Saskatoons, native fruits of excellent quality. The growth of these shrubs is very rapid and when associated with seedlings of poplar and spruce they reconvert a burnt-over area into woods again in the course of a few years.

Perhaps the major portion of the whole country consists of copices or park-like areas in which patches of

Typical Peace River-Park Lands.

light open woods alternate with grassy, tree-free tracts of varying extent. These park lands comprise much of the unsettled agricultural land, the open prairies having been practically all disposed of some time ago. While more work is involved in their development, it cannot be said to be a formidable task, and the land, once improved, is of the very highest fertility.

While a change of climate in any district is a much disputed question it cannot be denied that the clearing up and draining of wooded and wet areas permits of an earlier and hence safer season. The introduction of earlier maturing varieties of seeds still further reduces the hazard of injury by frost to growing crops. Bearing these factors in mind and considering the prevailing favorable climate and luxuriant vegetation as observed over a period of a century and a quarter it is safe to assume, declares the report in concluding, that the Peace River country will ultimately be one of the world's great grain-producing areas.

Birds Ride on Airplanes

P perch on Wings To Save Long and Tedious Flight

Which bird first found out that the aeroplane was a life-saver for birds will never be known, but he must have been a veritable Columbus among his fellows. His darling feat in perching on the shoulders of the huge, whirling plane was quickly imitated, and today thousands of his kind perch like feathered stowaways on the air-liner's wings.

The planes that fly across the deserts of Northern Nevada, in the teeth of the prevailing north wind are most favored by the voyagers. They save a long and tedious flight, and at the end of the journey the travellers arrive fresh and unharmed, with nothing to pay.

They show no fear of the big-men in the cockpit of the plane, recognizing in them fellow argonauts of the air.

The famous diamond exchange of Paris has a roof over its head for the first time. Hereafter trading has been done in the street.

The latter act is the most common place in the alphabet, "T" being the second in use.

W. N. U. 1669

Do Your Own Thinking

The Gift of Making Up One's Own Mind Is Rare

The ability to make up one's mind quickly and firmly on any matter that is suddenly presented to one is a rare gift. But a capacity to make up one's mind at all is almost as rare.

Many of us who pride ourselves on our wits and shrews, our excellent physique and our condition, allow our mind to become so flabby that it is quite incapable of responding successfully to a sudden call on it. We fall too easily into the habit of allowing other people to do our brainwork. Instead of disciplining our mind to do its own thinking, we take our views and opinions from others, and don't know what we think of anything until we have consulted some authority on the subject. Our mind is possibly just as good as thinking. Let us keep it in good going order so that it will respond readily to all the claims we make on it.

Depositor: "But I heard the receiver had a getting low."

Bank President: "Fool! Fool! There's nothing in it."

Jesus and Democracy: Jesus yield milk while making yellowed butter than that of Holsteins and Ayrshire.

Winnipeg Newspaper Union Fashion

A Distinguished New Frock

The model frock shown here is a decidedly smart style. The skirt has two inverted plaits at the front and is joined to the bodice closing at the side front with a single button and having a long collar, vested, dart-fitted or loose sleeves, and a trim belt across the one-piece back. No. 1885 is in sizes 36, 38, 40, 42 and 44 inches bust. Size 38 requires 3 1/2 yards 39-inch, or 3 yards 44-inch material, and 3/4 yard 39-inch contrasting material (cut crosswise) for View A. Price 20 cents the pattern.

Every woman's desire is to achieve that smart different appearance which draws favorable comment from the observing public. The designs illustrated in our New Fashion book are originated in the heart of the style centres and will help you to acquire that much desired air of individuality. Price of the book 10 cents the copy.

The Wealth Of Canada In Mines, Forests And Fields, Is Far Beyond Computation

Wheat Pool Membership

Total Membership in Western Pools Is 140,198

Membership of the Canadian Wheat Pool, the largest farmers' co-operative organization in the world, through which most of the wheat of Western Canada is marketed, now totals 140,198. The Saskatchewan Pool has 52,135 members controlling 10,814,012 acres of wheat and 487 country elevators with a capacity of 17,075,000 bushels. The pool expects to increase its country elevators to 675 this year.

The membership of the Alberta Wheat Pool is now 58,856, with contracts covering 3,684,127 acres, an increase over last year of 2,969 members and 227,054 acres.

The Manitoba Pool has a membership of 19,109, an increase of 2,994 members over last year.

The Alberta Pool has decided to build a new 2,600,000 bushel elevator at Vancouver at a cost of \$2,000,000. Work is to begin on this elevator at once so that it will be completed in time to handle the 1928 crop. By next fall the Alberta Pool will have 142 interior or country grain elevators in the province. The pool also uses, by lease from the Canadian Government, a large terminal elevator at Vancouver and one at Prince Rupert, B.C.

The Wheat Pool movement was first organized in Alberta, in 1925. The following year pools were formed in Saskatchewan and Manitoba. All wheat is handled by the pools through a central selling agency, with representatives in 51 ports of the world.

Last year the central selling agency sold for members of the three pools over 180,000,000 bushels of wheat and twenty-five million bushels of coarse grains, and had a cash turnover of about \$200,000,000.

Parcel Post to Australia

The post office announces that parcel post for Australia may be accepted for insurance on and after July 1, 1927, under the same terms and conditions as apply to parcels posted for delivery within Canada, with the exception that the 3 cent and 6 cent fees do not apply for Australia, so that the scale of insurance fees will be as follows: 15 cents for insurance not exceeding \$50; 30 cents for insurance exceeding \$50 but not exceeding \$100.

Canada has more developed riches than any other country.

It has been said that Canada as a whole is really much younger commercially than politically. Her mere surface area, a land and water amounts to three and three-quarter million square miles. The Prairie Provinces produce nearly 600,000,000 bushels of wheat and oats as a contribution to the food supply of the world, and little more than one-fifth of the total 300,000,000 acres believed to be fit for agricultural purposes have been placed under field crops. The remaining four-fifths are capable of sustaining many added millions of population, and they include an immense acreage already ripe for settlement.

The forest areas stand second only to arable lands among the basic resources of the Dominion, and forest industries have been surpassed by agriculture alone in fostering commercial growth. Even the work of ascertaining the actual extent of her commercial forests is still far from complete, at a rough estimate approximately one-quarter (250,000,000 acres) of the total land area in the Dominion is covered by forest growth.

British Columbia contains over two-thirds of the merchantable saw timber of Canada. The forests of the Middle West will probably be required to supply the local demand; two-thirds of the newspaper paper consumed in the United States is either of Canadian manufacture or is made from wood or woody material from Quebec, Ontario, New Brunswick and British Columbia.

The actual extent of Canada's waterpowers, like that of its forests, has been by no means fully ascertained, but the available potential horsepower (waterpower) is reckoned to be over thirty million, over four and a half million of which are already installed, namely in Ontario and Quebec—Ontario having the largest hydro-electric distribution system known. The figures show that Canada ranks second only to Norway in the per capita utilization of waterpower and the average is more than three times that of the United States. There are millions of water horsepower now under development about Lake St. John and the Gatheneau River in Quebec; while the horsepower of such rivers as the Nelson and Churchill, to say nothing of those in Northern Saskatchewan and Alberta, run into more millions, which will, one day, be harnessed and transmitted far and wide.

Few countries possess greater coal resources than Canada, which is estimated to possess one-sixth of the total amount of coal in the world. Long before the exceptional production stimulated by the war, the Dominion had become the world's principal source of nickel, asbestos and cobalt, and an important producer of gold, silver, copper, lead, zinc and a number of rarer metals. Five of the nine provinces of the Dominion share substantially in mining activity, although Ontario leads her sisters by a considerable margin.

Not only on the Atlantic but also on the Pacific coast and in her fresh water areas, Canada possesses fisheries of exceptional value. Two of the four great sea fishing areas of the world border on the Dominion, and, in addition, her lakes and rivers constitute approximately one-half of the fresh water of the globe, while the great inland sea of Hudson's Bay, still practically untouched can be regarded as a reserve. The Atlantic coast line measures over 5,000 miles; the Pacific alone, over 7,500 miles; the fresh water lakes of the interior constitute an area of 220,000 square miles.

Person Most Imposed On

In my elder days, I think much of my past. The thing I think of most is how frequently I imposed on my mother. She was the only friend I had in the days when I lived like a bound-boy in my father's family. Why did I impose on her? I think it was because I loved her, and want to live with my illegitimate. We all know, she was the only friend I had. It's a shame, but we do it—E. W. Howe's Monthly.

Nanette—"Has Tom a nest ready?" Annette—"Yes, he thinks I'm foolish to marry him."

MAYORS EXCHANGE GREETINGS

Mayor R. H. Webb, of Winnipeg, received from Mayor Foster, of Toronto, the felicitations of the Ontario city on the inauguration of the new across Canada train. "The Confederation." Mayor Webb (right) is seen here receiving the congratulatory message from the hand of William Wallis, Toronto newspaper editor, upon the arrival of the train at Winnipeg on its initial trip. The City of Winnipeg, in turn, forwarded by the

new train, its felicitations to Regina, Brandon, Vancouver and other cities on the route. Mayor Foster in his greeting to the City of Winnipeg said: "The inauguration of this very fine additional service by the Canadian National Railways is evidence of increased growth of trade and travel between Toronto and the Pacific coast, which I sincerely trust will continue to the mutual advantage of both our cities."

Shows Rapid Progress

It was only 41 years ago, the last spike was driven in Canada's first transcontinental railroad. Only 30 years ago, the first gold was found in Klondike. Only 20 years ago, two of her great Provinces Saskatchewan and Alberta were created.

Agony of Lumbago Quickly Soothed Away By "Nerviline"

For the sharp, piercing pain of Lumbago, the tormenting aches of Rheumatism, no agent is so efficient, so quick to bring comfort and relief as good old "Nerviline." This wonderful Liniment penetrates through the tissues very quickly, slays at once to the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. Those who suffer from stiff joints, swellings and Rheumatic conditions should use Nerviline, the King of Pain destroyers. Get Nerviline today, see it at all dealers.

Even the man most anxious to please can no longer say that a woman's clothes suit her down to the ground.

Use Miller's Worm Powder and the battle against worms is won. These powders correct the morbid conditions of the stomach, which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated with their refuse from the bowels. Soundness is imparted to the organs and the life health of the child steadily improves.

A professor of Dublin University believes the earth may be growing warmer under the influence of radioactive forces.

Keep Minard's Liniment near at hand.

SUNDAY SCHOOL LESSON

JULY 17

SAMUEL ANOINTS DAVID

Golden Text: "Let no man despise thy youth; but be thou an example to them that believe, in word, in manner of life, in love, in faith, in purity."—1 Timothy 4:12.

Lesson: 1 Samuel 16:1-13.

Devotional Reading: Proverbs 3:1-6.

Explanations and Comments

1. Samuel's Mission to Bethlehem, verses 1-3.—Saul had failed to measure up to the standard of what was expected of him. Saul's failure caused Samuel great sorrow. He realized that he must take definite action about Saul's successor, that such was God's chosen king. Yet he hesitated to go. Would not Saul kill him if the fact became known? Then, a way out of the difficulty came to his mind: as a matter of prudence he would give as the object of his visit the holding of a sacrifice, and would keep about the more important reason for his coming. He would give one reason for his visit, which was a true one, and would say nothing about another reason, which he was under no obligation to divulge.

"It was not concealment the object of which was to mislead any one, or to induce any one to do what he would not have done had the whole truth been known to him. When concealment is practiced in order to take an unfair advantage of any one, or to secure an unworthy advantage over him, it is detestable. But to conceal what you are under no obligation to reveal, when some important end is to be gained, is quite a different thing."—W. G. Blackie.

Scarcity of Beef Cattle

Reported That There will Be a Cattle Shortage in Saskatchewan This Year

A scarcity of beef cattle is likely in Saskatchewan this year, the experts say. The United Farmers of Ontario are reported in the market for a thousand carloads, as compared with 200 last year, and the opinion of cattle men is that Saskatchewan may not be able to furnish even the small consignment sent out last year. Up to the end of April Canada exported 8,000 head of cattle to Great Britain, compared with 3,264 for the same period last year.

Minard's Liniment for warts and Pimples.

A Baker's Dozen

In olden days pedlars in bread were formerly supplied with thirteen loaves for the price of twelve, the additional loaf representing their profit. It is also said that to avoid the risk of giving short weight (an offense visited with heavy punishment), bakers were accustomed to give thirteen loaves for twelve. But they don't do it now.

Town

Drives Asthma Like Magic. The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Lotus seeds, believed to have been buried under layers of peat more than 500 years in Manchuria, have been made to grow in a laboratory.

HELP WANTED!

Earn upwards of \$25 weekly; growing mushrooms for use, using waste space in cellars, barns or outhouses. Light work, no work for either sex. Commence now. Illustrations sent anywhere for stamp. Address: E. J. Muthroom Co., Toronto, Ont.

Work has commenced on the second stage of a building, shown above, which when completed will be the highest in the British Empire—truly a monument to Canadian enterprise, towering about 450 feet above the ground, with a frontage of over 400 feet on Dominion Square, probably

the choicest site in Montreal. The present head office of the Sun Life Assurance Company of Canada, which architects declare to be one of the finest office buildings in the world, will be incorporated in the completed edifice, but it will only be a small unit as compared with the finished structure. The present head office is

now occupied to capacity with a staff of approximately 1200 people. The completed building will provide for a total staff of over 10,000. The new building will be erected on a structural steel frame and the exterior faced with granite, and will be of the same monumental character as the existing structure.

TO CLOSE MANY SMALL PORTS OF CUSTOMS ENTRY

Ottawa.—The closing of a list of small ports of customs entry throughout the country will have to be tackled soon by Hon. W. D. Baler, Minister of National Revenue, and the action which is projected seems likely to cause some trouble.

The special committee of the House which last year began the inquiry into the customs administration recommended among several things, decrease in the number of customs ports and some of the commercial bodies previously had suggested the same thing. Money is lost from the operation. There is one case where the collections last year were only \$30. Nevertheless, a community that has a customs house in its midst regards it as a sign of status and will not readily relinquish any such service. It is believed any reforms in this direction will be effected with caution as the smaller the port that is closed, the louder is likely to be the consequential protest.

Meanwhile in the re-organized preventive service, this is the busiest season. Smuggling has greatly increased this year and has resulted in a remarkable growth in revenue. Sales and excise taxes are conspicuous factors, while some border points heretofore making small contributions to revenue are now taking in very substantial amounts. Mr. Cowan, chief of the preventive service will leave in about a week to attend to the final re-organization of the staff in the western provinces.

Higher Price Levels

Index Number of Commodities Slightly Higher

Ottawa.—The Dominion bureau of statistics index number weighted according to the commercial importance of the 236 commodities which are included in its computation rose 1.6 points in June, being 153.5 as compared with 151.9 in May.

Vegetable products rose from 174.0 to 181.1, higher levels for grains, flour, potatoes and some fruits more than offsetting lower levels for coffee, tea, raw sugar, hay and straw. Animals and their products fell from 135.7 to 134.0 declines in livestock, pork products, mutton and butter more than offsetting advances in hides, leather, boots and shoes, and beef.

'Discovers Process For Making Gold

French Scientist Claims He Has Solved Problem

Paris, France.—Professor Jollivet, French scientist, claims to have solved the problem of the ages—the transmutation of silver and other base metal into gold. He says he has succeeded in getting 20 milligrammes of gold from a mixture of other metals, including six grammes of silver. He believes that considering the cost of the agents employed the process will have great industrial value.

Sale Will Not Be Rushed

Winnipeg.—No action will be taken on the beer referendum results until the official returns have been received from all constituencies of the province, said Premier J. Bracken on his arrival here from his annual visit to the Brandon fair. Whether the result would demand a special session or not the Premier was not prepared to say.

Freight Rates Reduced

Moncton, N.B.—Freight rate reductions through the Maritime provinces and central Canada as provided for by Parliament at its last session when the report of the Duncan Royal commission was largely implemented by the Government are now in effect, the tariffs having been issued July 1.

W. N. O. 1689

Expedition Has Gone To Hudson Strait

Canada Will Set Up Aerial Bases in Northern Regions

Ottawa.—The Government's aerial expedition has gone to Hudson Strait. It is proposed to establish three aerial bases, one in the vicinity of Port Burwell, at the east end of Hudson Strait, one in the vicinity of Nottingham Island at the west end of the strait, and one in the vicinity of Big Island, on the north side of the strait, about midway between the two. The distance between Port Burwell and Nottingham Island is 500 miles. Hon. C. A. Dunning in receiving the airman said: "It is the policy of the government to provide for the development of the best port on the bay in order that all the resources of the territory adjacent to and surrounding the bay may be exploited and developed. Secondly, it is the intention of the government to provide, so far as the facts which you will determine will permit for ocean navigation from a port on the bay to any other part of the world."

Coast Cities Sponsor Flight

Two B.C. Aviators Anxious To Try London, to London Trip

Vancouver, B.C.—E. Turner is the second British Columbia aviator who has applied to make the proposed London, Ont., to London, Eng. flight. It was announced, S. A. Mowat, New Westminster, formerly of Regina, was the first.

Turner, who served two years overseas in the flying corps, has wired the promoters of the flight that he wishes to make the trip alone. He has met Mayor Louis Taylor to discuss the possibility of his effort being backed by the city. New Westminster has already sponsored the application of Pilot Mowat.

Mayor D. R. McLaren, president of the air force club of British Columbia, has announced the club would be behind any sound project for a flight from Canada to England.

Will Use Canadian Readers

New Brunswick Has Prescribed Series For Use in Schools

Fredericton, N.B.—The New Brunswick Board of Education has prescribed the series of Canadian readers for use in the schools of the province. Nova Scotia is to adopt the same series shortly and Prince Edward Island will do the same, it is expected. British Columbia, Alberta, Saskatchewan and Manitoba already use the series with the Maritime provinces. It is seven out of the nine provinces will have the one series of reading books in the schools.

Measuring Heat Of Stars

Delicate Instrument Is Being Used To Conduct Experiments

Washington, D.C.—"Flies" wings form part of a delicate instrument which will be used by Dr. Charles G. Abbott of the Smithsonian Institution for measuring the heat of stars. Dr. Abbott has gone to Mount Wilson, California, to conduct his experiments.

The "radio meter" is so sensitive that it could measure the heat of a match 5,000 miles away if no atmosphere intervened, the scientist said.

Surgeons May Establish College

Regina.—The formation of a Royal College of Physicians and Surgeons for Canada is being considered by the medical association, according to a statement made by Dr. B. E. Moore, who has just returned from a medical convention in Toronto. It would be affiliated with the same body in Great Britain.

Returning in Airplane

Paris, France.—Charles A. Levine, who accompanied Clarence Chamberlin in his flight to Germany, intends to fly back to New York as soon as he can find a French pilot to go with him. He made this declaration at a luncheon, given by the American and British correspondents here.

To Entertain British Editors

Ottawa.—Officials of the Dominion Government here will entertain a group of 100 British newspaper publishers and editors representing various provincial newspapers, in August.

U. S. ADJUSTS DIFFICULTIES OF BORDER RULING

Washington.—The recent negotiations between the Canadian legislation and the United States Department of Immigration have resulted in clearing up some points in the border crossing regulations. The regulations were the subject of international discussion when the Labor Department imposed new regulations affecting Canadian living in the Dominion and working on the American side of the border.

One important point is the status of Canadian who comply with the head tax and visa regulations, thereby qualifying technically as immigrants to the United States. Immigration experts have ruled that those commuters may continue indefinitely to enjoy the border crossing privilege without further payment of fees or renewal of passports, except that periodic inspection is proposed of commuters' permit cards, probably every six months.

Even if commuters change their place of employment in the United States, they will not be subject to challenge. Also, they may discontinue commuting for a reasonable period and re-commence under their old status provided they do not contravene any of the fixed clauses of the United States Immigration Act.

Another important phase of the new regulations has been clarified with the assurance of the Labor Department that Canadians may qualify as commuters in the future. Some phrases of the order raised a doubt as to whether Canadians not already commuting when the order was issued would be able to enter the United States daily to work on that side of the border.

Sending Dogs To Arctic

Eight Specially Trained Huskies On Way to Coronation Gulf

Vancouver, B.C.—Having completed nearly 1,000 miles of a 3,000 mile journey, a team of eight husky dogs arrived here from a post near Armstrong, in Northern Ontario. They are bound for Coronation Gulf in the Arctic. They embarked on the steamship Haychuan which sailed July 7.

The dogs are consigned to the Inspector of the Hudson's Bay Company at Coronation Gulf and are a specially trained team, developed for staminal and long distance pulls.

Will Try For Altitude Record

Chamberlin Expects to Keep Plane Aloft Over Sixty Hours

New York.—The Bellanca monoplane, Columbia, in which Clarence Chamberlin and Charles A. Levine flew to Germany, will be used by the same aviators as soon as it is brought back from Europe in an attempt to break the world's endurance record. Joseph May, secretary to Levine, said increased fuel is expected to keep the plane aloft for more than 60 hours.

Senior Golfers to England

Canadian Senior Golfers photographed just before sailing recently on the Canadian Pacific steamer Montclair for Great Britain, where they will meet international veteran golfers in a series of matches. The players are from left to right in the back row: P. J. MacKay of Seattle; Ralph Connah and P. A. Parker of Toronto; Dr. J. Sheahan, St. Catharines; Sir George Garneau of Quebec City; Dr. D. Buchanan, Galt; and J. D. Fraser of Toronto. Those sitting are C. Y. Stanley of Winnipeg; Mrs. P. A. Parker; George S. Lyon, 68-year-old veteran who will captain the team, George C. Heintzman and Dr. W. M. McGuire, all of Toronto.

Settling British Boys On Canadian Land

Governments Agree To Assist Them in Buying Farms

Ottawa.—What is expected to be the most constructive of modern land settlement schemes is embodied in an agreement for the settlement of British boys on the land in Canada, just concluded between the British and Canadian Governments under the Empire Settlement Act of 1922. Under the scheme it is proposed to jointly expend a total sum of five million dollars over a period of ten years.

The scheme will apply to boys who have received assisted passages, have passed through the provincial training centres in Canada, and who were between 11 and 20 years of age on arriving in the Dominion.

On reaching 21 years of age, the boys—provided that they have acquired the necessary training and experience by working for wages on a farm in Canada, and have saved approximately \$500—will be eligible for assistance up to an amount not exceeding \$2,000 for the purchase of a farm and for stock and equipment. No advances will be made to young men over 25 years of age.

Settlement under the scheme will commence on April 1, 1928.

Build Big Battle Plane

Huge Airplane Under Construction in United States

New York.—The New York American says a huge battle plane designed to carry five machine guns and gunners is being constructed for the War Department. The plane was designed by Anthony Fokker.

The plane with a wing spread of 72 feet is larger than the monoplane American which Commander Byrd flew across the Atlantic.

In addition to its machine guns the plane will have provisions for carrying 3,400 pounds of high explosives with which to bombard land or sea forces. It is said.

Hon. Robb Takes Vacation

Says Finances of Country Are in Good Condition

Quebec.—"I am not going to Europe to negotiate a treaty with Germany, and I will only visit France and England," declared Hon. J. A. Robb, on board the "Empress of Australia," which sailed for Quebec and Southampton. Mr. Robb declared he needed a rest after strenuous work at Ottawa.

"I am going," he said, "leaving the finances of the country in fine position. We have the money sufficient to meet our requirements and I will return in August."

Cattle For Canada

Montreal.—The Canadian Trade Commission at Bristol reports the formation of the South Wales and Monmouthshire Cattle Importers' Association, Limited, whose chief purpose is the direct importation of Canadian stock and fat cattle. This new group represents thirteen meat traders' associations in the region indicated.

WILL DROP PLAN FOR REFORM OF HOUSE OF LORDS

London.—An announcement in the House of Commons by Premier Baldwin that the Government's scheme for the reform of the House of Lords, which has created something of a political furor, was merely "a basis for discussion and criticism," is taken by political observers to indicate that the reform of the Lords may be dropped completely for the time being.

During the debate, which aroused parliamentary interest only as a discussion of the fate of Great Britain's upper chamber can arouse it, there was no affirmation of Lord Bickenhead's recent assertion in the House of Lords that the reform would be rushed through in the life of the present Parliament.

Ramsay MacDonald, leader of the Labor Opposition, moved a vote of censure on the Government on the question of the reform of the Lords, basing his motion on the charge that the Government had received no mandate from the people for its proposed changes. The motion was defeated, 362 to 167.

The Prime Minister had to listen to criticism from Laborites, Liberals and Conservatives. John Hicham, newly-elected to the House, voiced in his maiden speech the views of the dissenting Conservatives.

Mr. Lloyd George, the Liberal leader, declared that in the past the Liberal Government, in considering reform of the House of Lords, had decided to leave "the ramshackle thing where it was."

Prince Making Few Public Engagements

Premier Baldwin Will Carry Chief Burden During Canadian Visit

Ottawa.—There will be few actual public engagements during the visit of the Prince of Wales, from what can be learned at the present time.

Premier Stanley Baldwin will probably carry the chief burden of public appearances. During the Prince's three-day stay in Ottawa, only Wednesday, August 3rd, will be taken up with official duties. His Royal Highness will at noon on that day unveil the altar of sacrifice in the memorial chamber of the Victory Tower.

Later he will unveil the statue of Sir Wilfrid Laurier, recently erected on Parliament Hill and then visit the International Youth congress while it is in session.

Farm Area On James Bay

Has Same Prospects As Peace River District Says Professor

London, Ont.—According to Prof. J. W. Russell, head of the Department of Geology of the University of Western Ontario, "500 miles due north of London lies, in the district known as the James Bay, extending from the shores of the James Bay inland about 125 miles and covering an area twice that of Western Ontario, the greatest settlement, agricultural and population possibility in Northern Ontario. It is one of the two great population possibilities in Canada, the other being the Peace River district." Prof. Russell said that the James Bay had all the characteristics of Western Ontario in pre-settlement days.

Farmers Lose Heavily

Edmonton, Alberta.—More than nine thousand acres of hay land in the area of Big Lake, lying between Edmonton and Lac Ste. Anne, have been inundated and the hay crops destroyed at an estimated loss of \$90,000 to the farmers, owing to the flooding waters of the Sturgeon river, according to A. M. Kirkpatrick, government engineer, who has returned to Edmonton after making a survey of the Big Lake, Lac Ste. Anne and Wabamun districts.

To Prevent Liquor Smuggling

Moncton, N.B.—An understanding has been reached by which the Canadian National Railway, the Customs Preventative Service of Canada and the United States Customs Service will co-operate to prevent the illegal movement of liquor from points in the Maritime provinces to other centres in Canada and the United States.

Wild Animals Friendly on Banff-Windermere Highway

"The Friendly Road," by David Grayson, which is well-known to many lovers of nature, depicts incidents and friendliness of people along country roads and in the rural districts. There is, however, a road in the Canadian Rockies the friendliness of which is not due to mortals as in Grayson's book, but to the friendliness of animals. Animals termed wild, but in this instance a word that cannot be applied to those on the Banff-Windermere Highway. There is possibly no more beautiful road than this which runs from Banff to Lake Windermere, in the Columbia River Valley. The distance of 104 miles is spectacular and the scenes are constantly changing. The views from the high passes looking down into valleys, thousands of feet below, tiny lakes surrounded by alpine meadows, rivers crossed and recrossed, and glimpses of cascades tumbling down slopes from dizzy heights are intriguing and beautiful. To this natural beauty is added that of seeing the animals in their natural haunts. Rocky Mountain sheep are seen on the road above Verillion Lakes not far from Banff. They are so tame that often motorists have to slow down as they will persist almost to the point of danger in standing in the middle of the highway. Bozo, a black bear, is a friend to many motorists on the Banff-Windermere road. He comes out on the highway as if he had sole right to it. He does not resent these intruders in the least and really wishes to show his friendliness. Sometimes he has lunches handed to him and the remarks of "raise old chap, fine old fellow," please him tremendously, and he will try to come even nearer. Bozo no doubt had many dreams during the winter of summer tourists, and possibly has figured out in true bear fashion just how to get the most out of the tourist season. Deer are seen, also, on this famous highway, though not as often as other animals. They are regular visitors to Banff, and are frequently seen on the streets of the village. There are hundreds of miles of smooth motor roads through the Canadian Rockies, and devotees of the open road are visiting this region in increasing numbers annually.

SEE CANADA IN CANADA'S DIAMOND JUBILEE YEAR, 1897-1927

Here and There

Construction will be started shortly, it is announced, on the 2,400,000 bushel elevator to be erected by the Alberta Wheat Pool at Vancouver. And it is expected that the big plant will be ready to handle grain from the 1927 crop.

Twenty-three members of the Ohio Wesleyan Glee Club sailed recently on the Canadian Pacific steamer 'Montrose' for England, where they will visit a short while before beginning a singing tour of the countries of central Europe to last about a month.

The Holy Land is to be officially represented at the W.-I. Poultry Congress, it is announced. Dr. David Uri of the poultry experiment station in Palestine, will represent that country at the great international event to be held in Ottawa from July 27th to August 4th.

A new direct steamship service between Saint John and Havana, Cuba, will likely be inaugurated from the first of September, when the potato shipments start. The New Brunswick Government and the shippers of the province back the project, said F. L. Estabrooke, of Sackville, just returned from a trip of enquiries in Cuba.

A bed which rocks its occupant to sleep has been invented by Sir Alfred Yarrow, British agent. Sir Alfred, while travelling across Canada on the Imperial Limited some months ago, noticed that the slight sway of the train cured his insomnia. This fact resulted in his constructing the unusual bed, which enables him to sleep soundly.

A new departure in the province was the recent formation of an association known as the Nova Scotia Chinchilla Rabbit Breeders' Association, at a meeting at Kentville, with F. W. Foster of Daypring, president; Mrs. J. A. Barrett of Avonport, vice-president; and G. E. Roberts, of Grand Pré, secretary. Felix will fly into the mystery of the English Fur Board.

Search for the missing French aviators, Nungesser and Coli has been resumed by two Pathe News and two New York Daily News men who arrived at the C.P.R. station in Montreal recently enroute to Chicoutimi. Three of the party will form a land expedition, while the fourth will fly into the Quebec woods from Grand Mere. They will stay in until the mystery of the fates is cleared up.

B. Macdougall, former Saskatoon aviator and now a leading stunt flier in Los Angeles, has written asking if the citizens of Saskatoon will provide a plane to be entered in the flight from the Pacific coast to Hawaii, which he will fly. He offers Saskatoon backers half the prize money and half any other receipts, should he be successful. The President of the Star has announced that the Star is prepared to make a substantial contribution towards the \$15,000 required. The plane would be named the "City of Saskatoon."

Edmonton Exhibition.

The Grand Historical Pageant to be staged at the Edmonton Exhibition, July 18 to 23, will be a performance of unsurpassed excellence. Diffusing in every respect from the production of last year, the Pageant will portray the main features of Canadian history from the time of the early French settlements. These historical scenes will be interspersed with ballets of dainty dancing, smart drills and striking pantomimic effects. The pageant, culminating in the Human Flag and Wheel of Life when everyone taking part, 1000 persons in all, will be seen on the stage at the same time, and everyone should make a special effort to attend.

As a special treat for music lovers, the Association are arranging a program extraordinary to be given in the Arena by the Australian National Band on Tuesday, the 19th only. This concert by the band will be a special feature and will be an opportunity to hear the band at its best.

Those are only two of many wonderful attractions being featured at the Exhibition this year and all are worth coming miles to see.

When in Edmonton, Stay at **PARIS ROOMS,** 1027 1/2 98th St., Edmonton. Good Rooms, First-class Beds.

Duffield's Annual Picnic, Saturday, July Sixteenth.

Stony Plain and District.

A meeting of St. Mathew Walther League was held in the schoolhouse on Sunday afternoon.

Miss Hutchison, teacher at Blueberry school, is spending her vacation at Vancouver, B. C., taking a course at the Summer school.

Edmonton Beach presents an animated scene every day, there being some 63 boys from Edmonton City spending a vacation at the Rotary Camp.

Mr M. Pomerle has commenced work on his new residence at Lakemere. This is to replace the one burned down last winter. Contractor Pailer has the work in hand.

Mr Ulmer, of Muir Lake, is giving a dance tomorrow (Friday) evening, to celebrate the completion of his new residence.

Those who have the leisure next Saturday afternoon, the 16th, will no doubt be drawn to the Sports Day at Duffield on that date. A good program of ball games and other sports has been arranged; and those who attend will not be disappointed, as Duffield has the reputation of making their annual picnic the event of the season.

Beginning Sunday July 17 at 10 o'clock a 3 day Mission will be preached at St. Teresa's church, Carvel, by Rev G J Bradley, S.J., Regina. On Wed. July 20 Father Bradley will commence a Mission at St. Dominic's church, Duffield, and this will terminate Sunday July 24. The evening services will be held at 8 o'clock. The general public is invited to attend.

Some Athlete !

W J Wray of the Bank of Commerce staff, distinguished himself at the Mannville celebration on July 2 by winning a string of athletic events. Wray attached first prize in the 100-yard dash; 200 yard run; broad jump; hop, step & jump; and the high jump, clearing the bar at 5 ft. 3 1/2 in. — Vermilion Standard.

Wheat Pool News Notes.

L. McKinnon, a well-known Southern Alberta old-timer, has signed a second series Wheat Pool contract covering over 2700 acres at Dalemead. The LK ranch, of which Mr McKinnon is president, has placed over 4500 acres under a second series contract.

The Bassano board of trade passed a resolution favoring the cooperative marketing of wheat and other grains.

The Saskatchewan wheat pool obtained a sign-up of over seven million acres for the 2d series contracts. This is over a 50 per cent increase of the sign-up of first series contracts.

Mike Says:

If a man loses his health he's a pauper, no matter what his bank-book says;

There are other things in life beside work and business;

Every time I hear a fellow bragging he works like a horse I feel like sending him a bale of hay;

Everybody knocks the idle butterfly, but every time I see a busy little bee flying around I notice he's trying to sting somebody.

Spruce Grove News

The Grove's ball team journeyed to Muir Lake Sunday afternoon and engaged the ball tossers there. Score—Grove 11, Muir Lake 14. Battery—Muir Lake, Z Gamble & H Wolfe; p. Geo Gamble c. Grove; Gabel c. Ulmer p. Umpire—Val Pailer.

Travellers on the Baseline Sunday evening were given the treat of seeing a 400-lb. gentleman pig riding in a sleigh trailer hooked to a flivver, heading for the Grove.

The Grove ball team has been invited to participate in the Duffield Sports Day on the 16th.

Mr Laird, from Lacombe, gave the Grove a call, on Sunday.

There was quite a large crowd present at the annual picnic, last week, given by St. Joseph's Parish. Games of all kinds were held during the afternoon, with a splendid concert in the evening, in Winterburn hall. The booths on the grounds were well patronised during the afternoon.

The Guide to Safe Tire Service

"Firestone Tire Specialist"

Only by specializing in Firestone Tires are we able to give the high type of service that insures most miles per dollar from your tires. Call in to-day and we will gladly see that your alignment and pressure is correct.

Hyett & Schmidt, Agents, Stony Plain.
